

## Heavy-Duty Levers

Felsted's Heavy-Duty Levers are built especially for rugged, demanding applications in the construction, farm, and specialty truck business. In addition to the standard version, a push button version is also available which provides convenient push button operation and a choice of five gate configurations to offer a variety of design applications where the lever needs a detent locking mechanism.

The mechanical advantage of both levers is 5:1 with operating loads from 125 to 400 pounds dependent on cable series and travel. Superior corrosion resistance is provided by a handsome black matte finish Electrocoat Coating for the lever mechanism, which will meet 5% Salt-Spray, 336-500, with zinc plate for fasteners. Other advantages include a lightweight design and a pivot bushing.

### How to Order a Standard Non-Push Button Lever

To build an Assembly Part Number, please refer to the option charts below, and place the option numbers into the corresponding color coded boxes. Please Note: Knob color option only exists as black, which is #1.

KNOB COLOR OPTIONS		CHART 1
Black Knob Color	1	

CABLE SERIES OPTIONS		CHART 2
4 Series	4	6 Series 6

TRAVEL DISTANCE		CHART 3
2 inches	2	3 inches 3

Assembly Part Number

Hollow Steel Handle	58000		1		
Solid Steel Handle	58100		OPTION # chart 1	OPTION # chart 2	OPTION # chart 3
